## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shavit et al. in view of Official Notice.

Shavit et al. disclose or inherently teach all of the limitations of the claims (see for example: Col. 28, lines 40-50; and Col. 33, lines 50-65) but the reference lacks the specific teaching of data (i.e., reports) being received/sent in a first format (depicting, for example, daily totals) and then translating the data to a second format (depicting, for example, monthly totals).

The Examiner takes Official Notice that it was well known in the art of management and management reports to supply daily totals (i.e., first format including price and goods grouping data) and translating or calculating monthly totals (i.e., second format including price and goods grouping data) in order to determine long-term sales totals to determine whether or not the business is profitable.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
